¹ Per \$100 assessed value.

² These are in special taxing districts which have been set up to support these functions.

³ This tax was suspended in FY 1998 through FY 2000 due to reduced treatment requirements. The tax was reinstated in FY 2001 to address anticipated increases in the treatment requirements for pests.

¹On January 1, 2001, the calculation method for the Consumer Utility Tax on electricity and gas changed to meet the requirements of the Commonwealth of Virginia's utility deregulation legislation. The following two pages provide a detailed explanation of both the original and replacement calculation methods. Because the change began in the middle of FY 2001, the rates printed on this page apply to the first half of the fiscal year and the new rates apply to the second half of FY 2001 and all future fiscal years.
